ECT Main Sponsor of the Munich Chamber Orchestra for the Concert Season 2012/ 2013

Munich-based Company Renews Commitment for the MKO for another Year

Munich June 19th 2012: ECT (European Computer Telecoms AG), vendor of complete solutions for value-added services in the voice and multimedia domain, will be the main sponsor of the Munich Chamber Orchestra (MKO) in the concert season 2012/ 2013. It will be the eighth season for the company as the orchestra's main sponsor.

As part of the sponsoring, ECT supports the MKO's Subscription Concerts in the "Prinzregententheater" in Munich as well as the concert series "Nachtmusik der Moderne" – Modern Night Music in Munich's modern art museum "Pinakothek der Moderne". The latter series is jointly sponsored with BMW.

"As a Munich-based company that operates on a global scale, it is natural for us to support an institution like the MKO that is also based in Munich and causes a sensation worldwide," explains Dr. Marshall Kavesh Chief Executive Officer at ECT. "We have employees from over 30 countries, music as a universal language that connects people.. I'm sure it's similar with the orchestra, which has a similarly multi-national and multi lingual line-up."

With the support from ECT, the Munich Chamber Orchestra can hire renowned solo artists and conductors and can commission new pieces of music from both established, as well as from aspiring composers.

The new concert season has the motto "drama". The choice of works and composers will follow this central theme.

ECT's employees and guests can enjoy the drama because, as part of the sponsorship, they can visit all the orchestra's concerts. Additionally, prior to every concert, there is an exclusive concert introduction for ECT employees.

About ECT (European Computer Telecoms AG):

As a leading provider of technology for voice and multimedia value-added services, ECT enables telecoms providers to maintain cost leadership while offering products that optimally fulfill market demands.
