

For immediate release:

ECT appoints Wolfgang Huber to Board of Directors

On December 14, 2018, the ECT Supervisory Board appointed Wolfgang Huber to the Board of Directors with immediate effect. Wolfgang, who has been with ECT for over 14 years in various roles, joins the Board as Deputy Chief Technical Officer. Together with the CTO Dr. Hans Huber, Wolfgang will be responsible for the application layer of ECT's renowned solutions.

Munich, February 1, 2019: ECT (European Computer Telecoms AG), Europe's leading communications software company for the realization of value-added services in next-generation networks, has appointed Wolfgang Huber as Deputy CTO on the recommendation of the Board.

Wolfgang Huber, aged 41, received his degree in computer science and joined the ECT Group in 2004. Having had both development and management roles in R&D, Wolfgang brings an in-depth knowledge of ECT's technology as well as proven leadership to this new position.

ECT, which celebrated its 20-year anniversary in 2018, is investing heavily in research and development and is doubling the size of its R&D team compared with just two years ago. After founding its Product Innovation Department and Joint Agile Product Development Program in 2018, ECT has now converted its entire software development from waterfall to agile methodology. Wolfgang has been the driving force behind this process, making a major contribution to the continued success of the software company.

"Wolfgang has comprehensive knowledge of all aspects of our technology and has played a major role in the continued enhancement of the application layer of our **INtelLECT® Service Delivery Platform**. His implementation of agile methodology is a major contribution to the further evolution and sustainability of our company. My colleagues, Dr. Hans Huber, Walter

Rott, Metin Sezer and I are delighted that Wolfgang Huber is joining us on the Board as Deputy CTO” commented Marshall E. Kavesh, cofounder and CEO of ECT.

About ECT (European Computer Telecoms AG):

ECT is Europe’s leading communications software company. With our virtualized *INtelLECT*[®] **Service Delivery Platform**, innovative service applications and our Joint Agile Product Development Program, major communications service providers worldwide realize their products with minimal costs and the shortest possible time-to-market. We also often migrate existing services from multiple legacy platforms, innovating and consolidating them in one multiservice solution. As a one-shop vendor, we cover not only core services, like carrier routing, NP and FMU, but also sophisticated cloud services, e.g. for call centers and unified communications as a service (CCaS and UCaaS as well as workstream collaboration). Our Innovation Department keeps our software development – and thus the products of our customers – on the cutting edge of communications technology. We empower BT, Deutsche Telekom, DNA, Hi3G, izzi, KCOM, Liberty Global, Proximus, TalkTalk, Teliasonera, Virgin Media, Videocon, VodafoneZiggo, among many others. In addition to our own direct sales and service primarily in Europe, we also partner with Nokia Networks which offers our products and services worldwide. Together with our customers and partner Nokia, we at ECT enjoy meeting challenges and creating opportunities.

Founded in 1998, ECT is an unlisted German public company with its headquarters in Munich, Germany and wholly owned sales and service subsidiaries in England, The Netherlands and the USA.
