ECT

ECT is a tech company dedicated to better business outcomes for communications service providers (CSPs) and their customers. With our Telecoms Low-Code Application Platform (T-LCAP), Packaged Business Capabilities (PBCs), ready-to-use apps and agile co-development, we enable CSPs to compose, enhance and individualize telecoms services and products within their telecoms network. Our parent company, the European Computer Telecoms AG, is a German public company located in Munich, Germany, where we employ engineering experts from over 30 countries. The language of our company is English. German is not required.

We are currently hiring a

Rollout Engineer (m/f/d)
Working in Munich, Germany

Be part of our new 4 day work week, 32 hours, on full payment. Enjoy an unrivaled work/life balance next to your daily challenges as an employee at ECT. You will join the agile programming squad responsible for our low code application platform.

Main Tasks:

- Interface with customers in the early stage of the project gathering technical requirements, designing and documenting the system architecture.
- Create deployment specifications and configurations and implement the rollout of software packages to customer systems, e.g., for software releases and updates.
- Interface with other technical teams gathering the relevant information so any issue can be resolved in accordance with the design concept.
- Create and maintain scripts in order to standardize and automate implementations.
- Testing of backup & restore procedures and failover scenarios for web servers and Oracle database servers.

Requirements:

- University degree or equivalent experience.
- Expertise in virtualized systems, Linux configuration and patching (Red Hat / CentOS), TCP/IP networking, SQL, PL/SQL and shell scripting.
- Experience with Ansible scripting. Knowledge on GiT or Jenkins is a plus.
- Knowledge about telecommunication protocols.
- Excellent verbal, written and interpersonal communications skills in English.
- Outstanding documentation skills.
- Understanding of software development projects and processes.

Who we are:

- **We have an amazing, highly diverse team** with colleagues from Brazil, Colombia, England, Finland, France, Germany, Greece, India, Ireland, Mexico, the Netherlands, Pakistan, Peru, Romania, Switzerland Turkey, the USA, etc.
- **We care about you**. An unrivaled work/life balance – you work a 4-day week, 32-hours, but get paid for 5 days! All employees participate in the success of our company via our company

bonus. We offer a highly competitive compensation package with an initial annual compensation package of 64,000 – 72,000 EUR (ca. 77% fixed and 23% variable) and 30 days paid vacation annually.

- **We invest in your future**. We encourage all employees to participate in further education. We offer in-house language courses and trainings, external seminars and university courses. Many colleagues have even completed company-sponsored MBA programs.
- **We care about our community**. For over 15 years, we have been the main sponsor of the Munich Chamber Orchestra and all employees receive tickets to their amazing concerts.

In order to be considered, your application must include a cover letter with a compelling explanation of why you are the person we should entrust with this opportunity.

Please send your CV by e-mail, including your salary expectation and a possible start date to careers@ect-telecoms.de mentioning "Deployment2022" in the subject.

Employment starting date: immediate.
